## TELEGRAPHIC BREVITIES

—A woman Suffrage Constitutional amendment passed the Maine Senate yesterday. It requires a two-third vote of the Senate and House to submit it to the people.

—The Treasury Department has decided that the wife of a Chinese laborer is a person whose original entry into this country is prohibited by the Chinese Restriction Act.

—In 24 districts the German supplementary elections resulted in the returning of three Conservatives, four National Liberals, 10 New German Liberals, two Centres, four Socialists and one Imperialist.

## Scattering Shots.

Final, Arizona, is offering white quail among other curiosities of the local animal kingdom.

The cold was so severe recently, at Tybee, Georgia, that wild ducks were unable to fly, and large numbers of them were captured by hunters.

An alleged prairie wolf was recently killed near North Weald, in the south of England, and naturalists are wondering how he managed to reach the British Isles.

A pair of pet deer, of a West Indian species, have thus far been successfully wintered at Woodbridge, Conn. Their fawns, however, are unable to withstand the rigor of a New England winter.

While hunting elk in the mountains, near Camas Valley, Oregon, recently, a man lost his bearings, and wandered about four days before he was found. The injuries he sustained from freezing were such that his recovery was not considered probable.

Mrs. Sara Davidson, of Lower Boulder, Montana, shot a bear, and with the bounty paid for a sewing machine. So goes the story told by a newspaper. Bounties must run high in Montana, or else the sewing machine agents actually possess consciences!

A resident of Winchester, Tenn., has a unique pair of gloves. They were presented to him by a young lady who secured some rabbits, carded and spun their fur as if it were wool, and from the yarn knit the gloves. The back of each glove is decorated with the ear of a full-grown rabbit.

During a recent cold snap two colored men chopped open a beaver house on a frozen lake near Pine Bluff, Ark., and when the beavers appeared at the hole to get air thirty-two of them were shot. The carcasses were sold at from fifty cents to a dollar each, and the hides would have yielded a further profit of about sixty dollars, but for the fact that a still more enterprising "coon" burglarized the shed in which they were being dried.

**Make no Mistake.**  
By dispelling the symptoms so often taken for consumption, SANTA ABIE has brought gladness to many a household. By its prompt use for breaking up the cold that too often develops into that fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy in your house. CALIFORNIA CAT-R-CURE is equally effective in eradicating all traces of nasal catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker, Reno, Nevada.

**Notice!**  
Manning & Jacques have been appointed plumbers for the Reno Water Co. All other persons are warned against tampering with the mains or making connections thereto. Those having plumbing to do can only protect themselves by employing the best workman, and we recommend the above firm to any who may require such services. A. A. EVANS, Supt. Reno Water Co. declist

Is your hair turning gray and gradually falling out? Hall's Hair Renewer will restore it to its original color and stimulate the follicles to produce a new and luxuriant growth. It also cleanses the scalp, eradicates dandruff and is a most agreeable and harmless dressing.

**Shortness of Breath.**  
Dr. Flint's Heart Remedy should be taken at once when slight exertion or a hearty meal produces shortness of breath or a pain in the region of the heart. At druggists, or J. J. Mack & Co., 9 and 11 Front st. S. F.

**Resumed Practice.**  
Dr. W. D. Wagar has so far recovered from his protracted illness as to be able to resume his profession as a dentist at his old rooms in the Sunnierland building.

**SHILOH'S Cough and Consumption Cure** is sold by us on a guarantee. It cures Consumption. Sold by Osburn & Shoemaker.

**SLEEPLESS NIGHTS** made miserable by that terrible cough. Shiloh's Cure is the remedy for you. For sale by Osburn & Shoemaker.

**SHILOH'S ITALIZER** is what you need for Constipation, Loss of Appetite, Bloating and all symptoms of Dyspepsia. Price 1c and 5c per bottle. Sold by Osburn & Shoemaker.

**An Opportunity to Secure a Home at Reno!**

**200 LOTS FOR SALE**

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

**Building Up the Town of Reno**

Has determined to offer two hundred fine building lots for sale, some of which are situated in the central part of town, and are very desirable for business purposes.

The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot.

The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating.

The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address

J. Fraser is just in receipt of another lot of his boneless hams and bacon and has prepared more of his boneless, cooked, corned beef. Try a cake and you will never use any other.

People living north of the railroad track find Coffin & Larcombe's grocery store a great convenience for they can get to the store without being delayed by passing trains. All kinds of salt water fish to-morrow.

## Large Cattle Shipments.

If the daily shipments of cattle from Reno continue for the next 30 days as at present there will be but few of the quadrupeds by that time on the meadows hereabouts. During the past week upwards of 2,000 head have been sent to California markets. The large shipments are due in no small degree to the high price asked for hay. Beef, it is said by stockmen, is bound to command better prices before long.

## A Weak Back Kept Strong.

HIXBURG APOMATTOX CO., VA., March 7, 1886.  
Allcock's Plasters have enabled me to work and labor for the last two years. I have been troubled with a pain across my kidneys and a weakness of the spine which, at times, rendered me almost helpless. The first relief I obtained was by wearing two Allcock's Plasters, and I have no pain or difficulty. I consider them the best plaster in use. I, for one, cannot do without them.

## Pure Water.

The Reno Water Company has sent to New York for a filter with a purifying capacity of 500,000 gallons of water daily. Just as soon as it arrives it will be pressed into service, and Renoites can then feel confident of being served with pure water only.

## A Luxury and Necessity.

For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of Figs. 50c. and \$1 bottle for sale by Wm. Pinniger, Reno, Nevada.

## AN ASSURED SUCCESS.

### The Reno Electric Light Company's New Plant.

A GAZETTE reporter visited the works of the above named company yesterday and elicited the following facts in regard to the organization and development of the plant, which is now an assured success. As early as last September Mr. J. L. Stevenson, the present manager of the company, conceived the idea of electric lighting for this place, and at once began the necessary preliminaries to carrying out that idea. After feeling the pulse of the light-consumers of the town in regard to an innovation in antagonism to the oil and gas illumination, and finding encouragement held out by the most prominent merchants, he visited the principal cities of California, including San Francisco, Los Angeles, Oakland, Sacramento, and many smaller cities and towns where the electric light was in use, several different systems being in vogue. A careful investigation satisfied him that the Thompson-Houston system, though being more expensive to establish, would prove most satisfactory to consumers, and would also in time prove to be the cheapest to maintain, the light being uniform and steady; in fact, the best and most successful electric light on the arc system known. On October 23, 1886, the Reno Electric Light Company was incorporated with a capital stock of \$20,000, nearly half being subscribed, and Mr. Stevenson appointed manager of the company and works. A plant consisting of a 45-light, 1,200 candle-power, dynamo, 30 single and 15 double lamps, together with over four miles of heavy, insulated copper wire and other auxiliaries, were ordered, the station erected, poles for carrying the wire put up, and after numerous disappointments by delayed shipments, etc., the works started up on Monday, the 21st of February, and will now be a fixed fact for the future, the lights being a perfect success, and the consumers satisfied.

The station or dynamo room in which the current is generated is situated at the east end of the reduction works, one mile below the town. The building is 20 feet square and perfectly dust proof. The power by which the dynamo is run is furnished by the reduction works, which is run entirely by water power, and the recent cold snap was the cause of the lights going out on one or two occasions, the ice in the ditch accumulating so rapidly as to stop the wheel that furnishes the power for the reduction works and dynamo. This will be remedied in two ways shortly. First, by warm weather; secondly, by an adjunct in the shape of a 50-horse power steam-engine, which will be used during cold weather.

The entire number of lamps that the capacity of this dynamo successfully runs—viz.: 45, are all subscribed for, and some 25 or 30 more applications are in for service. In regard to the cost of electric lighting, in comparison with gas, it appears that the Thomson-Houston Company, in the construction of its apparatus, has so skillfully provided against the principal items of expense, which consist of repairs on apparatus, burning out of armatures, wearing of commutators, etc., that the charges for depreciation and repairs on a plant of this system is reduced so low, and the cost of attendance being nominal from the results of the automatic features of the apparatus, that there is very little, if any, difference in the price as compared with gas, while it gives an infinitely greater light, each lamp being rated at 1,200 candle-power.

The current generated by the dynamo and conveyed over the wires, runs many or few lamps equally, the dynamo being furnished with an automatic regulator which entirely controls the circuit, and when all the 45 lights are burning, any number of them—one, ten, 30 or 40—could be turned off simultaneously, and the automatic regulator, without any assistance or attention of the engineer or other person in charge, would so regulate or control the apparatus that the remaining lamps would only receive their proper proportion of the electric current.

The lamps are furnished to consumers or patrons by a yearly contract. This is done to prevent extra expense and work by changes. As soon as the contracts are signed for all the lamps now subscribed for, it is the company's intention to at once order another dynamo, and also 150 incandescent lamps of from 32 to 125 candle-power, for offices, residences, windows, etc.

The Thompson-Houston Co. during the past few months, has invented and introduced a new system of incandescent lights, which can be connected with the arc system, and run in such a manner that each incandescent lamp is independent of the others, and can be extinguished or lighted at pleasure, without interfering in any manner with the circuit.

## A Fatal Accident.

Dan Desmond and Dan Sullivan, two miners, were instantly killed in the Paradise Valley mine Tuesday afternoon, by the premature explosion of giant powder in a drill-hole which they were extending. This is the first fatal accident in the Paradise Valley mine.

It is spring. A resurrection of nature's latent forces is taking place. Like the world around you, renew your complexion, invigorate your powers, cleanse the channels of life. Ayer's Sarsaparilla is the means to use for this purpose.

## PERSONAL.

J. B. Shaw, of the Carson hot springs, went below last night. Mrs. M. D. Hatch, of Carson, went below on last evening's express.

Lloyd Tevis, the capitalist, was a passenger on last evening's express train for California.

Mark S. Severance, freight agent of the Southern Pacific system, is registered at the Depot hotel.

Mrs. D. R. Session, who has been visiting her relatives in Carson, returned to Oakland last evening.

Rev. J. D. Hammond, manager of the Methodist book concern in San Francisco, arrived from below this morning.

Hon. T. F. Laysack and wife returned from the G. A. R. encampment at Los Angeles on this morning's overland.

Captain Witherell, of the U. S. Land Office at Carson, and wife, returned this morning from the G. A. R. encampment at Los Angeles.

Al Sutherland, a prominent cattleman of Humboldt county, was a passenger on last evening's express train for Sacramento, where his family resides.

## Renoites Disappointed.

Manager Piper writes the GAZETTE that the Pyke Opera Company will not appear in Reno, and complains of the slim house that collected last Saturday evening at the Nevada Theater to witness "Zitka." If Mr. Piper will send to Reno the good companies that come along he can, as a rule, feel assured of large houses for them, for Renoites enjoy theatricals that have genuine merit, and are always willing to pay liberally to witness them. But they will not pay their coin simply to encourage a combination that is followed by numerous adverse criticisms both as to the character of the play and the manner in which it is mounted. Many of our people counted on hearing the Pyke Opera Company and feel the disappointment keenly. Had they known that this excellent company would not appear here it is highly probable that many of them would have gone to Carson to witness one or more of its performances. They will have an opportunity to save their coin for another occasion. If the next combination that comes along is of a fourth rate order, probably Manager Piper will have it stop in Reno. No, thank you; something good or nothing.

## The Sawdust Question.

The California Assembly committee on the sawdust question, in their report submitted the other day, gives the three very good reasons why the further depositing of sawdust in the Truckee river should be stopped:

First—Its presence in the river tends to destroy trout and food fish.

Second—It is conveyed by the waters of the river through its entire length, and through ditches and canals used for irrigation purposes upon valuable farming and grazing lands, and spreading over the surface thereof, tends to render them almost valueless and unavailable for agricultural purposes.

Third—It renders the waters of the river unfit for drinking and domestic purposes, particularly in the summer months, and sickness and death has resulted to the people of Nevada from its use.

## Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

## Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for consumption, coughs and colds, but be sure you get the genuine. Because he can make more profit, he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all throat, lung and chest affections. Trial bottle free at S. J. Hodgkinson & Co.'s drug store.

## Saved His Life.

D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years, badly afflicted with phthisis, also diabetes; the pains were almost unendurable and would sometimes almost throw him into convulsions. He tried Electric Bitters and got relief from the first bottle, and after taking six bottles, was entirely cured, and had gained in flesh 15 pounds. Says he positively believes he would have died had it not been for the relief afforded by Electric Bitters. Sold at 50 cents a bottle by S. J. Hodgkinson & Co.

## Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicine usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. Twenty-five cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

## Notice!

Manning & Jaques have been commissioned by the Reno Gas Co. as a competent firm to do their gas-fitting, and the company would recommend parties having work of the above character to do, to employ only the best test, short sight, and saving much annoyance and expense. WM. THOMPSON, Sup't. of Reno Gas Co.

DR. FLINT'S  
HEART REMEDY

Take it in Time. A man who presents an appearance of debility, whose countenance is anxious, and who is subject to spells of faintness, is liable to sudden death from heart disease. Let him take Dr. Flint's Heart Remedy before it is too late.

Apoplexy. Dr. Flint's Heart Remedy would have prevented many cases of apoplexy, which is usually dependent upon diseases of the heart, if taken when first any unusual sensations were felt.

Blessing of Sleep. Dr. Flint's Heart Remedy, for the man or woman who finds himself or herself unable to sleep, is an invaluable medicine, which will not only procure the blessing of sleep, but will prevent a general breaking down of the system.

MISCELLANEOUS.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Pustular Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effective an alternative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring beautiful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

Is composed of the genuine *Hondurum Sarsaparilla*, with *Yellow Dock*, *Sili*, *Fig*, the *iodides of Potassium* and *Iron*, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

About Willa.

One of the most curious features in this "revenge by will," is the many times it has deceived the ends of the will-makers. A very remarkable instance occurred not many years ago, and is recalled by the writer.

A gentleman of large fortune was married to a lady of some attractions. For a time they lived very happily, but soon a disagreeable temper began to be exhibited in the husband. This latter turned to a positive dislike, quite undeserved on the wife's part, and which deepened into a malignant hatred. Her forbearance and temper carried on matters with tolerable smoothness for some years, when the husband was seized with an illness that proved fatal, and he went out of the world in the old ill-conditioned way he had lived. Her friends were congratulating themselves on this release, and as she had but a slender settlement it was known that all his large fortune must come to her. When his will, however, was opened, it was found that everything was left away from her—artful and ingenious devices had been used to deprive her of the smallest article of property—and, with almost diabolical malignity, a last blow was given, "and I made this disposition for a reason that she herself best knows." This scandalous insinuation only recoiled on the head of the testator, for her friends knew her character too well, and the charitable set down this un-governed hatred to something akin to insanity. The lady accepted her lot, but not long after, if relative, who was also a lawyer, happened to be talking to one of the witnesses to the will, in the street. Suddenly a gentleman passed them.

"There's a coincidence," said the lawyer, "there's your fellow-witness, A. B."

"Oh, was he," said the other, carelessly, "I didn't know."

"What?" exclaimed the lawyer. A question or two followed, and it came out that the two witnesses had signed at different times. The will collapsed of itself, without even a legal proceeding, and the lady was triumphantly restored to her rights. One might almost wish that her baffled lord had been allowed one peep from his grave to know the failure of his malignant efforts.

Dancer, the famous miser, bequeathed to one legatee, four old stockings, to another, two more old stockings, to a third, a blue stocking and his red cloak, to a fourth, an old boot and a red flannel pocket, and to an old woman, who had sometimes given him food, his jug without a handle. The legatees were naturally disgusted with their bequests until the jug was found to be full of sovereigns, and on examination the other articles named were also found to be the receptacles of the dead miser's hoardings.

The writer once saw the will of one of the Camerons of Lochiel, in Scotland, who was beheaded for participation in the rebellion of the Forty-five. It was dated the night before his execution, and, after forgiving all his enemies, with the exception "of Appin and his bloody son," it went on: "I leave to my oldest son, Donald, the buckles I have on my shoes. I do this because they are made of neither silver or gold, but of steel, and that is the only metal that will avenge my death." Nice sort of sentiments after forgiving all his enemies!—(Chicago News.)

Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with "Green's August Flower" and "Rochester's German Syrup," as the reduction of 30 cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The "August Flower" for dyspepsia and liver complaint, and the "German Syrup" for cough and lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size.

Petition for Order Directing a Sale of Real Estate.

IN THE DISTRICT COURT FOR THE State of Nevada, in and for the county of Washoe.

In the matter of the estate of M. C. Lake, deceased.

The petition of Charles T. Bender, administrator of said estate, having been submitted to me by said administrator, and upon examination thereof, I believe it necessary to sell some portion of the real property belonging to said estate of M. C. Lake, deceased, for the purpose of paying debts and costs of administration against said estate remaining unpaid, it is therefore ordered that all persons interested in said estate be and appear before said Court at the Court-room at Reno, in said county of Washoe, at 10 o'clock in the forenoon, on the

22d Day of March, 1887.

Or as soon thereafter as said petition can be heard, for the purpose of showing cause, if any they have, why the prayer of said petitioner should not be granted and an order made authorizing the sale of a portion of the real property of said estate for the purposes above mentioned as shall be necessary.

The foregoing order is made this 19th day of February, A. D. 1887, at Judicial Chambers at Reno, in said county.

R. R. BIGELOW, District Judge.
